

# Plant Microbiology Lab Course ESRM490B- Winter 2013

<http://courses.washington.edu/plmiclab/>

The Plant Microbiology Lab offers students an opportunity to gain valuable knowledge in basic microbiology skills including isolating microbes from within plants, growing cultures, inoculating plants and assessing growth and health impacts. Basic molecular biology skills will also be taught.

Assoc. Professor Sharon Doty (sldoty@uw.edu)

Mon/Fri 9:30-11:20

3 credits
